Timeless style
declare who you are
to the world

Twin Clothing (Pvt) Ltd. was founded in 2008 by our Chairman Mr. B. A. Manorathne, who used his vast experience in the field of industrial sewing machines to launch a new venture in the apparel industry. Our Director, Mr. B.A. Dayasena, is our founder's youngest brother who has been at the helm of the company since the inception. Having started with 10 staff members, we have rapidly expanded to 150 members.

Over the past 15 years, we have maintained an excellent track record for customer satisfaction and we pride ourselves on the quality and services provided to the customer. We use the best fabrics for our production (such as Piqué Polo, wet look, Crosol, and single jersey). We serve private companies, government institutions, and schools/universities, and also provide solutions for events. In addition, we provide industrial sewing machines, spare parts, and technical services to the garment industry. Also, we function as a contract manufacturer for exporting garment factories.

WHAT WE OFFER

We offer full customizability for corporate t-shirts, staff t-shirts, sportswear, caps, bags and school uniforms, and specialize in fabric & collar cuff knitting, embroidery, sublimation and screen-printing of these offerings.

OUR DRIVING PRINCIPLES

We are dedicated to being a growth-oriented and profitable entity, which meets the highest standards of business ethics in the interest of our customers, employees and stakeholders. In addition, we consider conserving nature a top priority.

Capacity & Quality

Our facilities

We have a well-equipped production unit using high-tech machines, which is run by a skilled and dedicated production team. Our infrastructure is backed by an excellent manufacturing and processing facility and sound financial support that help us strengthen our quality standards and ensure on-time delivery.

Our capacity

Our sewing capacity of 35,000 pieces per month using 100 machines, in-house designing capacity, and in-house plants for embroidery/cutting/finishing/printing (screen & sublimation) and knitting ensure that we are well-placed to deliver your product on time.

Our 150-strong workforce is skilled in cutting; pressing and packing; fabric testing and quality control; and four different embroidery machines.

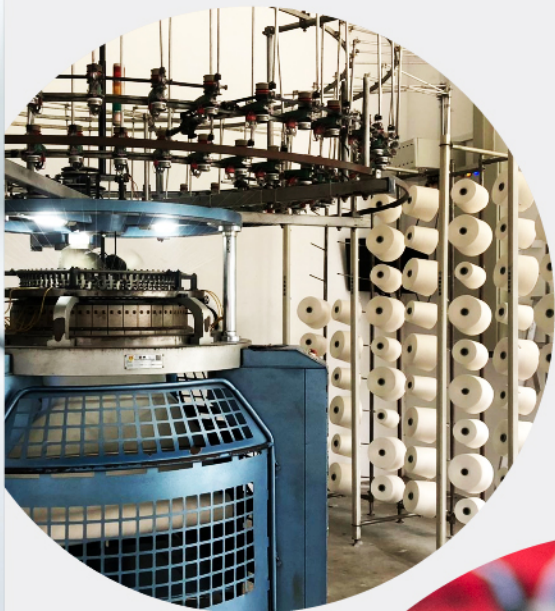

Technology in use

We use advanced technology to design and produce different clothing. We follow the 2.5 AQL Quality System and ensure 100% inspection for all items, with our experts maintaining strict vigilance in the manufacturing process to ensure that all the products deliver value and satisfaction to our clients.

Quality assurance

- Fabric inspection: 4.0 System
- Cut panel inspection
- In-line sewing quality audit system: 7.0 System
- Random measurement inspection
- Pull test: check button inspection
- Final auditing: 100% inside & outside inspection for all production
